Executive Summary

California Education Code 42130 requires school districts to approve an original budget and at least two interim financial reports each year. The attached report is the second of the two interim reports and updates both revenues and expenditures with information available as of January 31st as required by state law. This report utilizes revenue assumptions developed by the California County Superintendents Educational Services Association.

The second interim budget has been updated from the original budget and contains changes for other known costs, including negotiations with Certificated, Special Services and Management and the one-time federal and state revenue and corresponding expenses. This report also contains a multi-year projection (MYP) that has been updated to reflect current information as well as a cash flow projection, a criteria and standard review and other pertinent budgetary information.

Overall Fiscal Condition of the District

A positive certification of the first interim report is recommended meaning the District should be able to meet its financial obligations over the next two years. California Education Code 42131 requires the governing board of each school district to certify in writing that the school district is able to meet its financial obligations. Based on the first interim report, the District will meet their financial obligations. The report does reflect the District will be using fund balance over the next 2 years due to declining enrollment which reduces the amount of funds available from LCFF (Local Control Funding Formula).

Revenues and Projected Revenues

The SACS reporting software divides district revenues into four categories of funding: LCFF Sources, Federal, Other State and Other Local. Normally, federal and other state revenues are a much smaller percentage of district revenues, but the last few years there has been a large but temporary influx of state and federal monies which has inflated these revenues.

Local Control Funding Formula

The local control funding formula (LCFF) is the District's main source of operating revenues. The primary factors that determine the amount of this funding source are average daily attendance and the district's unduplicated count which is mostly comprised of the student's who come from families with low income, English learner status and if the student is a foster youth. These variables are used in conjunction with state determined per ADA amounts to determine funding. Since enrollment has declined, average daily attendance has also declined, which affects the revenue for the current year as well as the two out years.

Total LCFF Funding: Original Budget and MYP

Original Budget	2 nd Interim	FY 2024 MYP	FY 2025 MYP
\$4,378,505	\$4,596,760	\$4,491,938	\$4,194,752

One Time Federal and Other State Funds

The District has received a variety of one-time Federal and State money in this budget and will be spent over the next two years. Once the funds are exhausted, the expenses will need to be eliminated or other on-going funding will need to be redirected to cover any expenses the District desires to continue.

Expenditures and Projected Expenditures

Expenditures have projected to be approximately \$8,598,967 for the budget year.

The multi-year projections adjust expenditures based on approximate step and column increases for salaries, estimated health and welfare increase, STRS and PERS projected percentages provided by the State, and a percentage for inflation for supplies and services.

Conclusion

The pandemic has continued to create an unusual financial situation for most school districts. Although in some regards funding is at a record high for CA school districts, most of the funding is one time and will be exhausted over the next two years. The District has adequate reserves but with the District projecting to continue enrollment at the current rate, coupled with the loss of one-time funds and possible need to provide general funds for modernization, it will need to review current spending in order to maintain a stable fiscal environment.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)

2. Contracted general administrative positions not paid through payroll

a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800.

b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool.

Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment	

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect

cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	767,803.00
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	26,288.84
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (3.76%) times Part III, Line B19); zero if negative	292,753.71
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (3.76%) times Part III, Line B19) or (the highest rate used to recover costs from any program (3.61%) times Part III, Line B19); zero if positive	0.00
D. Preliminary carry-forward adjustment (Line C1 or C2)	292,753.71
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	not applicable
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	292,753.71

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since first interim projections, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
